

Versa[®]TUBE

v2i series

Brilliant. Attractive. Intense. Versa[®] TUBE is a robust LED fixture that delivers limitless effects from vibrant patterns to subtle, organic color flows.

A Versa TUBE display can be configured in any layout imaginable. Any video can then be mapped onto the display. The result: a fluid, colorful palette that moves light in ways never before seen.

Versa TUBE is a favorite among premier designers throughout the world who rely on Element Labs technology to illuminate media facades, film and television sets, touring stages, architectural treatments, and tradeshow.
